How to activate autocad 2018 autocad x-force?As Windows 10 offers new features, it also is bringing with it the need to do more to protect the security of your PC and the data on it. Today, Microsoft is announcing a partnership with cloud security provider, McAfee, to enhance the security of your Windows 10 PC. With today's announcement, you can now choose whether your Windows 10 PCs and devices will remain safe and secure, or whether they'll be exposed to cyberattacks. Starting with Windows 10 Anniversary Update, you can choose whether to create and enable a Personal or Device Guard profile. Then, when you log in, McAfee's technology can run in the background on Windows 10, helping to keep you and your device safe. To see it in action, Microsoft posted a video to its YouTube page that clearly shows the new look of the prompt, and how it works behind the scenes. The part that's especially interesting about McAfee's addition to Windows 10 is that it's not just about replacing the traditional security measures we've been used to with Windows 10. It's also about providing a proactive layer of security that lets us enjoy the benefits of
