What's New in the The Fly98?

=====

Fly98 is a new visualization of your radio. It's a real time picture of your radio through your TV set. You can listen to your favourite radio station and tune simultaneously. But not only your radio - Fly98 will show you also your FM-Radio, AM-Radio and VHF-radio. - free (free-of-charge) - simple to use - fast enough - tuned to your TV tuner (BT848) - equipped with 10 band filters - tuned to your TV channel - tuned to your FM-radio - tuned to your AM-radio - tuned to your VHF-radio Let's start with the basics... Tap the volume-button of the TV Tuner and turn up the volume. Now go to FM-Radio and the AM-Radio. Go to VHF-Radio and scroll over the band. Fly98 visualization is waiting for your commands. Now you can tune your radio to a desired station. But Fly98 is more than just a visualization. You can use it also as a keyboard controller for your radio. So you can view the frequencies of your radio in a table on the Fly98 screen. In the tables you can find all frequencies of your radios. You can tune and even change frequencies without touching the dial. Scroll over the boxes to view more frequencies. Now you can scroll over the frequencies. You may just want to scroll over the FM-Radio or the VHF-radio. Hover your mouse-pointer over a frequency-box. The mouse-pointer becomes a tuner. Hold your mouse-pointer over a radio tuner and fly98 will tune your radio to this frequency. Please note that Fly98 is displayed as a client-side-application. Fly98 runs on Windows95/98/NT4/2000 All questions? Write them to the mail box: Fly98@gmx.de In the Fly98 installation folder you find a help-file. Fly98 software install guide: =====

Fly98 was written for the "SkyAngel" TV tuner. For this implementation a few hardware-considerations: - a standard ISA card with hardware-volume-control - an ISA-Card which is 24 MHz faster than the 32 MHz-capability of a "
