Municipality of Gothenburg -  
Publicity and Information Center for  
the Committee Public, 2011. Clinical  
Psychology – Master the art of  
healing with your mind & Body,  
enjoyment and practical skills to  
empower you to live life to the  
fullest. Master the art of healGing

---

with your body and mind, enjoy life and live life to the fullest. Enjoying life is imperative for mental and physical wellbeing. It influences every aspect of a person's life and their relationships with others, as well as their attitudes and behaviours. Life is experienced by all in different ways and is defined by different individuals. The study of how people live their lives is referred to as life

---

psychology. The focus of life psychology is to develop and learn about behaviours that promote personal health and enjoyment in life. Good mental and physical health is a prerequisite to enjoy life and to be able to engage fully with and contribute to society and the world. Life psychology covers all aspects of human experience - and this includes physical, emotional, mental, spiritual

---

and social wellbeing. Life is created by the relationships, experiences, interactions, skills, abilities and preferences people put into their lives. Life is affected by all of the contextual, relational and individual factors that we face and these are explained in detail in this unit. It explores the relationship between people, their roles and responsibilities. It looks at the

---

influence of opportunities that people have in their lives. People are influenced by the wider society. They are influenced by their peers and role models. They are influenced by their family, culture and religion. They are influenced by their own emotions and emotions are influenced by their emotions. People are influenced by society. The way they are taught and guided is an influence. People's

---

emotions also help us understand how we live our lives and how we are affected by others. Life psychology explores how you can develop skills to overcome difficulties, how you can enjoy life and how you can live to your fullest potential. The approaches to life psychology cover many ways to develop yourself and grow in your skills. It is important to be able to understand yourself in order to find

---

the help you need to improve yourself. The purpose of the course is to improve people's lives by giving them skills to improve their lives through a variety of approaches.

These approaches have been developed to help people become better. The aim is for you to develop the skills, attitudes, 3da54e8ca3
