Welcome to the edge of space, where the deadliest of battles are fought on the high seas! Every day you have to fight with your metal clad grunts for food, water and oxygen. You are the Admiral of your fleet, the one who must make the best decisions to enable your crew to make the right moves. Fiery Disaster is a fast-paced and challenging game that revolves around ship battles. It's very difficult and you must use your brain to win! The best part of the game is that you can win and get to the NEXT round. You may get to the last round of the game. Features: - Addictive, high-score and leaderboard system - 13 unique and challenging stages - 5 different fleets each with different characteristics - Beautiful and distinctive high-resolution graphics - Interactive dashboard - Two different game modes: Arcade and the more difficult Survival - Torpedo bombing - Arming your ships - Naval simulation - With no respawn, you are only getting the maximum score you can. - Nothing

can be repeated. What is bugging you in Fiery Disaster: There are many issues and bugs in Fiery Disaster, and we are working hard to fix them as soon as possible. This may take up to a week or a month depending on the severity of the bug and how much time we have free for fixing. Here is a list of the most important bugs and other issues in this version: - Wrong score shown after each level (caused by the wrong game state handling) - Will not arm your ships - In a few stages you can lose your ship - Wrong position of your boats - Ships can disappear - You can see your fighters no longer when you are in the hangar - There is no protection against crashes - Some stages are broken - Some levels have too high gravity or zero gravity - Some fleet bosses can't be fought anymore - The game can crash - The screen may freeze - Some objects, like trees, appear too far away About Us: 'Developing fun games with passion for games and the mobile technology' is the main goal of KONOSEEK GAMES.
