****Online modes including PvP, asynchronous Online Play, guilds and more will be added in the future**** The Lands Between are a place between two worlds, a place where an old corruption consumed magic. Even so, most of the forest and the fields still remain. The Elden Ring was born here; a massive set of ruins where the last of the Elden cast their power. The undead, who had returned from the grave during the Age of Heroes after a long night of silence, assembled here to wage war on the world. For a long time, the people lived in a world in which magic and life were mixed. While many of the Elden perished, the old man who had been entombed for millenniums broke the seals on his sarcophagus and came back to life. He took the mana of the Elden Ring's power from the battlefield of his domain. By the time he died, he disappeared into the snow and fog of the Lands Between. However, he was taken by the power of the mana of the World Tree, which had absorbed the power of the plants and the forest. His mana was focused on this battle, and it shot out of the World Tree and called forth a black mana. The mana spread far into the world and emerged from the earth with a mighty roar. It burst through the Lands Between and accumulated around him. However, it also gathered up the people who received its energy and drew them together. At the same time, three sisters who were sorceresses who had been held down by the evils of their world and have been in agony watched, trembling. They murmured "Those who want the Land of Tamori destroyed, we shall serve them well." In the midst of this, the very mana of the people was destroyed and flowed out. Afterward, the mana of the land, which had absorbed the mana of the plants and the forest, absorbed the mana of the people. By the time
